How to drive your new Buff & Go

Place right foot on the bottom right giving it a slight push to pull back and begin rolling. Walk beside the Buff & Go workstation for easy management. To place unit down, use the same right foot to control unit as you place it down so that no damage is caused to the floor area. Remember, unit is bottom heavy due to the products inside.

Buff & Go locking key system allows you to secure your equipment and supplies. To close Buff & Go workstation, push bottom door upward and tilt up top door, then let top door down to shut in place. Turn key clockwise to lock.

Buff & Go workstation is easily accessible. To open, turn key counter clockwise, push in lock. Place fingers underneath the top door, pull up on top door to lock in place.

Buff & Go comes complete with four containers with lids, paper towel holder and a foot tub storage compartment for easy travel. For additional storage, place bigger bottles inside foot tub.

How to drive your new Buff & Go

Attach a lamp for extra lighting on the handle section of your Buff & Go unit. Recessed area fits manicure bowl or product for convenient use.

Buff & Go workstation allows a nail technician and their client to sit comfortably for manicure services. Pedicure services can be applied by soaking the clients feet in a foot tub along side the Buff & Go workstation.

Place a small towel in a folded position in center of the work surface. Place a larger towel on top and roll paper towel upward overlaying work surface and in seconds you can begin your nail services.

Helpful Hints

- Never leave without a lamp, extension cord, towels, manicure bowls and paper towels.
- For easy closure of the Buff & Go workstation, use regular size rolls of papertowels.
- There are two options to place the lamp.
 - 1) The table part of the workstation.
 - 2) On the handle of the workstation.

Cleaning & protecting your new Buff & Go

Your Buff & Go unit can be cleaned with a damp towel, soap and water. Use a small amount of ArmorAll® for shine. For a nail polish spill, use a tiny amount of polish remover (non acetone) to clean. However, too much of any spill may damage the unit long term. Protect your unit by closing products tightly after each use.

Safety Instructions

When traveling, carefully place your Buff & Go unit in the back of your vehicle. To pick unit up safely, hold by handle and grip area located on bottom front. **Warning!** All products should be tightly closed and placed in containers. Containers should be placed in Buff & Go and unit locked for safe travel. Entering and exiting doors can be challenging. Be sure unit is all the way in or out of doorways for safety. Always secure your unit in a safe place. In a case where the hinge malfunctions, locate the small knob on the hinge. Hold the worksurface and push it in. Lift the table up and then down. Lock it and go.
